BIO:

Dr. Justin Trosclair D.C. has been creating a difference in people's lives since 2007. He spent seven years in private practice in Denver, CO, and five years in Yunnan Province China working as a foreign expert chiropractor in a hospital setting. He worked in Cologne, Germany for the past two years and is now re-located in the USA.

He is host of A Doctor's Perspective Podcast: over 200 doctor to doctor interviews about their specialty, marketing, staff concerns and ways to maximize family life balance.

Dr. Trosclair has authored three books. A no needle acupuncture guide for self treatment, a complete health reboot including diet, exercise and financial topics (it was a #1 seller on Amazon for a short period), and a book explaining how to master Chinese dinner culture as a foreigner since it is such an important part of their culture. He also released a series of tri-lingual animal based children's coloring books as a passion project for his daughter.

With his humor, travel and cultural awareness, and chiropractic career (private clinic ownership, associateships and hospital based) Justin has been a featured guest on podcasts and live streams discussing these topics.
